

Benin Yeasmin
Machine Learning Engineer
Chittagong, Bangladesh

01800000000

beninyeasmin@gmail.com

Recent graduate with a strong academic background in Machine Learning and a passion for applying theoretical knowledge to real-world problems. Proficient in Python and common ML libraries. Eager to learn and contribute to a dynamic team environment, and quickly adapt to new challenges. Seeking an entry-level position to gain practical experience.

Professional Experience

Machine Learning Engineer

Amazon, New York, NY

2023-01-01 to 2026-12-31

{"bulletPoints": "Developed and deployed machine learning models for [specific task or application, resulting in a [quantifiable achievement, e.g., 15% increase in efficiency].", "Designed and implemented data pipelines using [technologies used, e.g., Spark, Hadoop, Kafka] to process and prepare large datasets for model training.", "Utilized various machine learning algorithms, including [list algorithms, e.g., linear regression, random forests, deep learning], to build accurate and robust predictive models.", "Evaluated model performance using appropriate metrics [list metrics, e.g., precision, recall, F1-score, AUC] and implemented strategies for model optimization and improvement.", "Collaborated with cross-functional teams, including data scientists, engineers, and product managers, to define project requirements and deliver successful machine learning solutions.", "Consistently monitored and maintained deployed models, ensuring optimal performance and addressing any issues that may arise.", "Proficiently used version control systems such as Git and collaborated effectively within agile development environments."}]}

Education

International Islamic University Chittagong

BSc in CSE

2023-01-01 to 2026-12-31

Sample Description

International Islamic University Chittagong

MSc in CSE

2027-01-06 to 2028-12-29

Sample Description

Skills

Problem-solving

Neural networks

Domain knowledge

Data science

Software engineering
